

Viscosimetro Cannon-Fenske serie 400 per liquidi trasparenti

Caratteristiche principali: modello 33-C per liquidi trasparenti. In vetro per la determinazione della viscosità cinematica in centistokes di liquidi trasparenti secondo le norme ASTM D-445, D-46, IP71 con certificato.

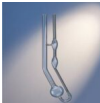

Codice Articolo: 01.4730.77

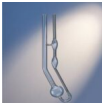

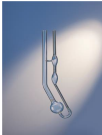

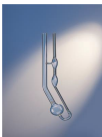

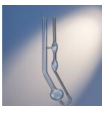

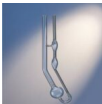

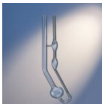

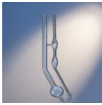

Breve descrizione del prodotto:

Viscosimetri per liquidi trasparenti CANNON-FENSKE serie 400

Informazioni aggiuntive:

- Costante approx. cSt/s: 1,2
- Serie: 400
- Scala: 240÷1200
